

YANTON®

PROFESSIONAL FM TRANSCEIVER

999 Channels!

Dual Band Standby
Dual Band Display

DUPLEX REPEATER
UHF to VHF or VHF to UHF

T-680UV

Professional FM Transceiver

- High/Middle/ Low Power Switch:10/5/2W
- Dual band standby, Dual band display
- Frequency:136-174MHZ & 400-480MHZ
- 136-174MHZ & 450-520MHZ

YANTON® T-680UV

PROFESSIONAL FM TRANSCEIVER

999 Channels!

DUPLEX REPEATER UHF to VHF or VHF to UHF

- High/Middle/ Low Power Switch:10/5/2W
- Dual band standby, Dual band display
- Frequency:136-174MHZ & 400-480MHZ
- 136-174MHZ & 450-520MHZ

FEATURES

SPECIFICATION

GENERAL		TRANSMITTER (ETSI EN 300 086 standard testing)	
Frequency Range	136-174MHz / 400-480MHz	Output power	10W/5W
	136-174MHz / 450-520MHz	Modulation Mode	16KΦF3E / 8KΦF3E
Operating Temperature	-25°C~+55°C	Modulation Limited	±5KHz/±2.5KHz
Frequency Spacing	25/12.5KHz	Audio Distortion	≤5%
Frequency Stability	±2.5ppm	Residual frequency modulation	-45dB/-40dB
Channel Capacity	999 Group	Adjacent Channel Power	-70dB/-60dB
Working voltage	7.4V	Spurious and Harmonic Wave	-36dBm<1GHz -30dBm>1GHz
Battery capacity	2800mAh Li-ion battery	RECEIVER (ETSI EN 300 086 standard testing)	
Antenna Impedance	50Ω	Receiving Sensitivity	≤0.18uV / 0.22uV
Dimension	112mm×60mm×40mm	Adjacent Channels Selectivity	≥70dB/60dB
Weight	232g (Include Antenna & Battery)	Intermediation	≥60dB
		Spurious Response	≥70dB
		SNR	≥50/45dB
		Audio Output Power	1W
		Audio Distortion	≤5%

Notice: Saving your presence, no additional notice will be sent if specification changes because of technology-improving.
